

Informing School Improvement

How do we achieve positive and practical change in our schools? We listen to what students, teachers and parents have to say.

Used by over 6300 schools
and 5.4 million students
worldwide

The most widely used
school survey in
Canada and Australia

Providing valuable insight for your school planning

The OurSCHOOL (formerly Tell Them From Me) Survey is a complete evaluation system for measuring **student engagement**, **well-being**, **classroom climate**, and other factors known to affect learning outcomes. Information is captured from students, parents and teachers to inform school policy and practice.

Helping to identify your school improvement initiatives

Our intuitive **interactive charts** help you to discover areas for targeted intervention and identify at-risk groups. These can be used alongside our **thematic reports** for straightforward interpretation of the data.

Drawing on leading research on performance indicators

The OurSCHOOL survey measures were developed by Dr. J. Douglas Willms, in consultation with international subject-matter experts. His knowledge is embedded in the **intellectual property** of the survey and reinforces the importance of using **leading indicators**, as opposed to trailing indicators, to provide the best foundation for school improvement.

Powerful features

to help you measure results, target interventions, and monitor progress.

Customize the survey based on your priorities

Tailor your reporting to precisely what you need; select from **50 measures** related to school completion, student engagement, bullying and school safety, career aspirations, emotional and physical well-being, risky behaviours, and more.

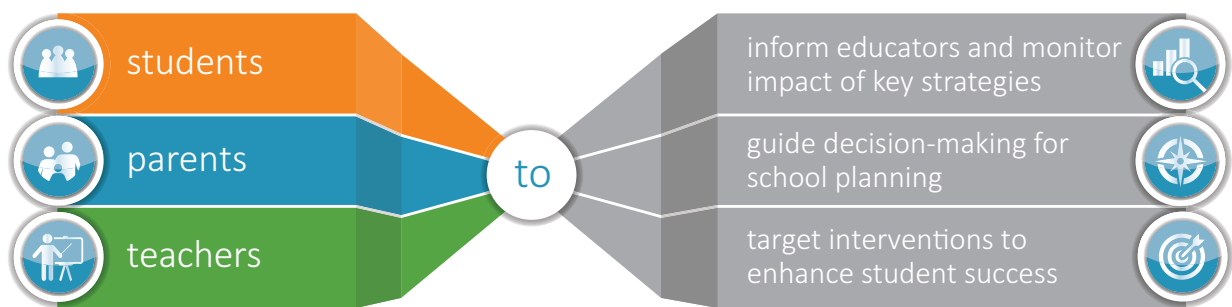

Use national and local norms as a benchmark for growth

Compare your results with national and local norms, and see a virtual “**Replica School**” with demographics matching your students.

Benefit from advanced reporting functionality

View your reports within two days of the survey’s completion, enabling you to analyze results immediately. Use our drill-down functionality to extract and share your information in presentation or report formats. Anonymity of survey-takers is always in place.
